

Nasdaq Futures Transaction Fees

March 1, 2018

Nasdaq Futures, Inc (NFX) is committed to the energy market and aims to provide transparent fee reductions that can be over 50% versus the incumbent exchanges.

- Fee model provides transparent discounts for ALL customers that are substantially lower than incumbent exchanges

Fees for NFX Benchmark Oil, Refined, and 10,000MMBTU Natural Gas Products

Standard Screen Fee	Standard Block Fee	New Customer Screen Fee*	New Customer Block Fee*
\$0.10	\$0.40	\$0.05	\$0.15

All clearing and associated fees will be billed by OCC directly. View the [OCC fee schedule](#) for more information.

*New Customers will be entitled to these fees for a period starting in the month of their first trade, and for three (3) additional calendar months thereafter.
